olvdanny@protonmail.com

i'm a web developer focused on crafting great web experiences. Designing and coding have been my passion since high school.

To graduate in June 2021 from **EPHEC in IT**

But i found myself into web design/development since 2015. I enjoy creating beautifully designed, intuitive and functional websites

SKILLS AND TECHNOLOGIES

The biggest part I contribute to my work is in the area of software & web development.

LANGUAGES
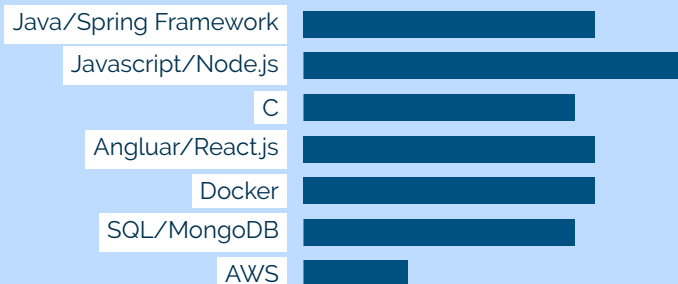

- English
- French
- Dutch (rudimentary)

Back-end
Database
Cloud
Docker
Front-end

Skill	
Java/Spring Framework	
Javascript/Node.js	
C	
Angluar/React.js	
Docker	
SQL/MongoDB	
AWS	

Currently, I develop real-time apps with the Spring framework and React.js. Formerly i worked with the MEAN stack.

I am using Git, Docker and IntelliJ IDEA regularly for my dev projects.

IntelliJ IDEA   Git   Maven   Docker   NPM

ACTVITIES

In my free time i read lots books to learn and improve my coding skills and help others on Reddit or Github. Due to body-weight training i can keep my body and mind in balance.

dev projects are on **my GitHub account**
